(280) UNESCO AND INTERNATIONAL STUDY CENTRES IN GERMANY

THREE NEW UNESCO INSTITUTES, COLOGNE, MUNICH AND HAMBURG

Within the framework of a resolution adopted at the Fourth Session of the General Conference of Unesco in 1950, three international institutes have been created in Germany: one in the field of the Social Sciences, established at Cologne; one for Education, at Hamburg; and one Youth Institute, at Munich.

The project entailing the creation of these institutes has been considered by Unesco as a single international action directed toward helping youth. The grouping of their work provides for an inter-disciplinary as well as an international activity undertaken in common by the younger and older generation with a view to aiding youth to adapt itself in a world community.

Before Germany became a Member State of Unesco in 1951 there existed a precursor to the present German National Commission for Unesco, the German Committee for Unesco Activities. On this Committee there were representatives of the Federal Republic of Germany and of the Education Ministers of the different States of the German Federal Republic, with representatives also from private groups and organizations within the field of education, science and culture. Unesco's institutes in Germany have been developed in close co-operation between Unesco itself and the German Committee for Unesco Activities, and now with the German National Commission for Unesco.

Financial contributions, sufficient to provide for the institutes for the first two years of their activities, have been received from five Member States and contributions have been assured from two others, of which Germany is one. Germany will contribute 20 per cent of the total budget in the first year, 30 per cent the second year, and 40 per cent the third year—the Constitution limits the financial contribution of any single Member State to 40 per cent of the total budget. The cities or States in Germany in which the institutes are situated will meet the expenses of their permanent quarters. In Cologne, at Claudiusstrasse 1, a new building is being erected. In Munich, a building affording office space for the Director and his staff, with living quarters for approximately 40 young people, is being re-modelled for the purposes of the Youth Institute. In Hamburg, a suitable building has been found and purchased by the City for use by the institute at Feldbrunnenstrasse 7 c.

The Constitutions of the institutes have beeen registered under German law and provide for a Governing Board, composed of 14 individuals, six German nationals and seven non-German nationals, each of the seven coming from a different Member State, and the Director-General of Unesco or his representative.

Professor J. J. Schokking, a Dutch national, has been appointed Director of the Institute for Social Sciences; Professor Walther Merck, a German citizen, has been elected by the Governing Board of the Education Institute as Director of this institute; and Mr. Ralph Blumenau, a British subject, is directing the Youth Institute.

The Governing Board of the Social Sciences Institute has selected the follow-

ing topic for its principal action during the first two years: Social differentiation and integration, by means of comparative community studies with special reference to youth. The Institute will carry out an active programme of research and exchange of information. A library is being assembled for the use of members of the Institute. It will contain material on social psychology, sociology, the place of minorities, international law and allied topics. Contributions made to the library in the form of publications needed, or by means of the Unesco Gift Coupon System (See *Bulletin*, vol. VI, no. 4, April 1952), will be much appreciated.

The Governing Board of the Education Institute has chosen the following programme: To study and to adapt adult education methods for the purpose of creating attitudes of co-operation between people, and also to study and to make known the factors in pre-school education which influence the future development of the personality so as to be able responsibly to participate in a world community.

The programme of the Youth Institute has not been finally established, but will be related to the programmes adopted by the other two institutes.

Libraries for study and reference use will also be created in these institutes and they will specialize in materials for the study of childhood, education and youth.

Close co-operation will be maintained by the Youth Institute with other national and international centres for study already established in Munich, among which must be mentioned the International Youth Library.

INTERNATIONAL YOUTH LIBRARY, MUNICH

The opening of this library (IYL) was describsed in the *Bulletin* (vol. IV, no. 1, January 1950). At the start the IYL consisted of 8,000 books from 23 countries, within the first year it grew into 12,000 volumes from 26 countries, and at present there are 18,000 volumes from 35 countries. All these books were gifts, a moving sign of confidence and hope in this enterprise. The donations came from: Afghanistan, Argentina, Australia, Austria, Belgium, Brazil, Canada, Denmark, Ecuador, France, Great Britain, Greece, Germany, Guatemala, Italy, Monaco, the Netherlands, Norway, the Philippines, Saarland, Sweden, Switzerland, Spain, South Africa and the United States—mostly sent by publishers, official organizations, libraries, but also including collections made by schools and individuals. Today some of these national sections are well stocked, others not so well, and it will be one of the most urgent tasks of the next two years to complete the library systematically.

The IYL aims at being a model institute of its kind not only for Germany, but also for other countries. The main tasks of the IYL are: (a) to work with children and young people, (b) to work with publishers, writers, illustrators and with the educators of young people.

The effects of World War II on the library system in Germany are still very noticeable; reconstruction is hampered by countless obstacles, which limit very greatly the opportunities for libraries for children and young people. Many spheres of activities, which in Anglo-Saxon countries and in Scandinavia are considered part of the work of a youth library, are still not considered as such in Germany.

One of the outstanding activities of the IYL is the organization of book discussion groups. Girls and boys from 11 to 17 years of age participate regularly in weekly book discussions. The guidance and evaluation of these book discussions is in the hands of experienced librarians and other specialists. Some of these discussions are open to publishers. Among the books discussed recently by boys and girls of ages 11 to 14 are: Herbert Kranz, *Retter des Stammes;* Max Mezger, *Monika fährt nach Madagaskar;* R. L. Stevenson, *Treasure Island;*

Youth-Forum, discussing books at one of their meetings at the IYL.
La « Tribune des jeunes » discute des livres au cours d'une séance organisée à la B.I.J.

Mark Twain, *The Prince and the Pauper;* Lisa Tetzner, *Was am See geschah;* Astrid Lindgreen, *Pippi Langstrump;* Avelyn Clevé, *Helen Keller.*

Boys and girls of years 14 to 17 read and discussed: Antoine de Saint-Exupéry, *The Little Prince* and *Wind, Sand and Stars;* John Steinbeck, *Gabilan;* Alan Paton, *Cry, the Beloved Country;* Gerhard Simson, *Fünf Kämpfer für die Gerechtigkeit;* Albert Camus, *L'étranger;* Fedor Dostojewski, *Der Grossinquisitor.*

During 1951, for the first time since its establishment, foreign guest librarians did practical work in the IYL. They came from Sweden, England and Switzerland. Their temporary co-operation offered the library the opportunity to supplement its collection from these countries. At the same time, the foreign librarians had an opportunity to acquaint themselves with the special methods of the IYL and to consider how these methods could be applied in the libraries of their own country.

A list of the favourite books from all countries has been compiled on the basis of the experiences gathered in the library, and will be published in 1952. Publishers who visit the library get information concerning new editions and titles as well as information concerning copyright.

In November 1951 the library held a conference on "International Understanding Through Children's and Youth Books": 250 guests from 9 countries took part, including authors, illustrators, publishers, librarians and educators. An international committee for assisting the development of books for youth was set up, and a board of trustees will meet in 1952 to discuss plans and suggestions for another conference. The work of the committee is being carried on in co-operation with Unesco, which was represented at the conference.

NEWS AND INFORMATION

UNESCO AND INTERNATIONAL NEWS

APPEAL TO READERS

Since the *Unesco Bulletin for Libraries* was first published in April 1947, it has mainly been distributed free to libraries in Unesco Member States. As, however, the number of copies of the *Bulletin* which can be printed is for reasons of economy strictly limited, we are unable to extend circulation to meet the constantly increasing demand unless some part of it is covered by subscriptions.

Libraries becoming subscribers will afford a direct and practical contribution to an important and unique international library activity. They will enable more libraries to receive this publication free and to become partners in a world-wide system of exchange of information which extends with the expansion of its contacts.

Libraries are urged to get into direct touch with the national distributors of Unesco publications in their own country (see list of addresses on back cover of this issue), and subscribe at the annual rate of $2; 12s.3d.; 600 F. frs.; or the equivalent in local currency. At the same time libraries taking out new subscriptions are asked to notify the Unesco Clearing House for Publications, 19 Av. Kléber, Paris-16e by postcard that they have done so.

(281) CREATION OF A BIBLIOGRAPHICAL CENTRE IN BRAZIL

Unesco's Executive Board recently approved the foundation of a model Bibliographical and Documentation Centre at Rio de Janeiro. This centre will be installed, with the help of the Brazilian Government, at the Getulio Vargas foundation. It is intended primarily to provide Brazil with a general bibliographical service and the Centre itself will organize an international documentation office. It will serve at the same time as an experimental centre for the best methods to be employed locally, with the aim of producing results which can be applied in all countries. It will be international in character and all countries of Latin America will be able to benefit from its services.

Unesco will help in establishing the Centre by sending an adviser during the first months of 1953 to work in collaboration with Mrs. Sambaquy, who is in charge of the Union Catalogue of Brazilian Libraries and who recently received a Unesco travel grant for study in Europe and the United States.

(282) A FRENCH LIBRARIAN GOES TO TURKEY TO WORK FOR UNESCO

Mr. Henri Frédéric Raux, Head of the Service of International Exchanges at the National Library in Paris, has arrived at Ankara, where he is to set up a Bibliographical and Documentation Centre in collaboration with the Turkish National Library.

Mr. Raux, who will spend a year in the Turkish capital, was sent by Unesco at the request of the Turkish Government; his mission comes under the Technical Assistance Programme.

The Bibliographical Centre which Mr. Raux has been instructed to launch is intended to supply Turkish students and research workers with the scientific documentation they require. It will also be extremely useful to the two Technical Assistance missions which Unesco has already sent to Turkey for the purpose of setting up three new seismological stations. It will subsequently be used by universities and will be directed by Turkish technicians, some of whom will receive fellowships to gain experience abroad.

(283) SCIENTIFIC DOCUMENTATION CENTRE IN YUGOSLAVIA

Unesco recently concluded an agreement with Yugoslavia granting technical assistance in the establishment of a Scientific Documentation Centre in Belgrade. The function of this centre will be to co-ordinate bibliographical work already under way or about to be initiated and to receive the latest scientific and technical publications. Through the use of photocopies and microfilms the Centre will circulate this material among universities, industrial and scientific research laboratories, training schools and technical institutes.

In 1952 Unesco aid will take the form of a mission consisting of a Director who will be responsible for the organization of the Centre and for the scientific and bibliographical work of the experts; a specialist in documentation thoroughly familiar with the problems involved in the exchange, classification and abstracting of scientific and technical publications; and a head for the photographic reproduction services. This mission will stay for at least one year.

Fellowships will also be awarded to Yugoslav librarians and specialists to enable them to go abroad to study the principles and techniques of documentation, and to take charge of the Centre when experts of the mission leave.

(284) AMERICAN LIBRARY ASSOCIATION ENDORSES UNESCO COUPON PROGRAMME

The American Library Association's Council at its meeting in Chicago, 1 February 1952, adopted the following resolution upon the request of the Association of Research Libraries:

"Whereas, Unesco, of which the United States is a Member State, is facilitating among its Member States the exchange of educational, scientific and cultural information through its Unesco Coupon programme, and

"Whereas, the acquisition of American publications by participants in the Unesco coupon programme is furthered in proportion to the increased use of these coupons by American libraries in the settlement of their foreign purchases, and

"Whereas, the libraries of the United States are prompted both by ideals and precedent in promoting the exchange of ideas and information as expressed in books; therefore, be it

"Resolved: By the Council of the American Library Association, at the second session of its Midwinter Meeting, 1 February, 1952, that Amercian libraries be urged to give their support to the Unesco coupon programme by using the coupons to the fullest extent practicable in their purchases of publications from other countries participating in the programme; and that the Executive Secretary of the Association be instructed to give appropriate publication to the text of this resolution."

(285) CHILDREN'S BOOKS WIDELY DISTRIBUTED

The CARE-Unesco Children's Book Programme (see *Bulletin*, vol. V, no. 4), launched in November 1950, has resulted in the delivery of 28, 424 American children's books to schools in 19 countries of Europe and Asia during the past two years; $35,549,83 has been contributed in the United States to make these shipments possible, a total of 3,533 CARE book packages with an average of eight volumes to a package.

The Programme is supported by the National Congress of Parents and Teachers, the Association for Childhood Education, the American Library Association, the Girl Scouts of America. The Children's Book Council has co-operated with it.

(286) MEETINGS AND CONFERENCES

INTERNATIONAL LIBRARY AND DOCUMENTATION MEETINGS, COPENHAGEN, 1952

25-28 September. Annual meeting of the international committee of the International Federation of Library Associations.

28-29 September. Joint meeting of representatives of the International Federation of Library Associations, the International Federation for Documentation, the International Council of Archives, other international organizations interested in librarianship and documentation, and Unesco.

30 September-5 October. Restricted Conference of the International Federation for Documentation and meeting of some of its committees.

6-8 October. Meeting of Technical Committee 46 (Documentation) of the International Organization for Standardization.

9-11 October. Meeting of Technical Committee 37 (Terminology) of the International Organization for Standardization.

Details concerning the respective programmes of the meetings may be secured from the Secretariats of the organizations concerned.

FIRST INTERNATIONAL CONGRESS ON MEDICAL LIBRARIANSHIP

The First International Congress on Medical Librarianship will be held from 20 to 25 July 1953 at University College, Gower Street, London, W.C.1.

ELEVENTH INTERNATIONAL WEEK OF BELGIAN ART

The International Federation of Belgian Art announces that the "Eleventh Week" will be held from 1 to 10 August 1952. This cultural activity will give people from other countries an opportunity of admiring the art treasures of the Belgian towns, visits to which are included in the programme. All particulars are obtainable from Professor Paul Montfort, 310 avenue de Tervueren, Waluwé, Belgium.

CONGRESS OF THE FIEJ (FÉDÉRATION INTERNATIONALE DE LA PRESSE)

The fifth annual congress of the Fédération Internationale des Éditeurs de Journaux et Publications, FIEJ (Fédération Internationale de la Presse), was held in Brussels from 4 to 6 June 1952. National members of the Federation represented were Austria, Belgium, Denmark, Finland, France, Germany, Italy, Luxembourg, Netherlands, Norway, Sweden, Switzerland, the United Kingdom and the U.S.A.

The Congress reviewed the present position with regard to the availability of newsprint and the various steps being taken to increase the amount of newsprint throughout the world. It discussed the work of the UN directed towards securing freedom of information.

A report on standardization of newspapers was presented by a group of experts who have been studying the matter for the Federation.

A full report on the decisions of the Congress may be obtained from Mr. Claude Bellanger, Secretary General of the FIEJ, 6 *bis* rue Gabriel Laumain, Paris-10e, France.

Congresses will in future be held every two years, but because of the importance of the matters now being studied, it has been decided to hold an extraordinary meeting in Paris in 1953. The next regular Congress will be held in Stockholm in 1954. The Executive Committee will meet at San Remo, Italy, in December1952 and at Amsterdam in 1953.

GENERAL NEWS

(287) ARGENTINA. CENTRE FOR INFORMATION AND EXCHANGE OF PUBLICATIONS

This centre has been established at the Argentine Foundation of the Cité Universitaire, Boulevard Jourdan, Paris, for the purpose of promoting exchanges of publications between the universities and libraries of Latin America and France, through the import into France of Latin-American works. The conditions for such exchanges are outlined in the Centre's regulations.

(288) FINNISH SCIENCE ACADEMY DOUBLES ITS EXCHANGES

In the past few years, the Academia Scientiarum Fennica, Helsinki, Snellmaninkatu 9-11, has doubled its exchanges of publications with foreign universities and learned societies. In 1951, it carried out approximately 420 exchanges with other institutions, as against 221 in 1949 and 367 in 1950. This increase is attributable to the generosity of the Academy, which does not make its offers conditional upon the receipt of an equal number of works.

(289) INTERNATIONAL EXCHANGE SERVICE, MADRID

This important service (Servicio de Cambio internacional de publicaciones), which was established as the result of the Brussels Convention of 1886, has continued to function normally although in 1950 there was a slight decrease in the number of publications received (112 cases in 1949 as compared with 99 in 1950; 70 from the United States in 1949 as against 56 in 1950).

On the other hand, the number of parcels of publications sent out has increased by 1,096, making a total of 4,352 parcels as against 3,256 in 1949.

This is due to a number of reasons, the principal one being that the Spanish institutions exchanging publications with foreign institutions have begun to realize the advantages of the official service over their own private service, as the former is quicker, safer and also more economical, since it is free of charge.

(290) NEW INSTITUTE OF ORIENTAL STUDIES

The U.S.S.R. Academy of Sciences has established in Moscow a new Institute of Oriental Studies, divided into sections for the following countries: China, Mongolia, Japan, the South-East Asian countries, India, Afghanistan, Iran, Turkey and the Arab countries, and the Soviet East. A special manuscript collection is being organized.

The Institute's primary function is the study of national movements in these countries. A five-year work plan provides for the study of the history, economy and culture of all Oriental countries, as well as the literature of the Central Asian peoples. Dictionaries, textbooks for the teaching of languages and reference works will be printed by the Institute, together with scientific reviews for the general public.

(291) SUMMER SCHOOLS AND CONFERENCES, 1952

A summer school on Archives and Historical Research is being sponsored by the Academic Development Committee, York Civic Trust, St. Anthony's Hall, Peaseholme Green, York, and will be held from 9 to 23 August 1952. This is the fourth residential summer school to be held in York.

Particular attention is given to York historical collections and buildings, civic records, the records of guilds and merchants companies, etc.

The syllabus of lectures is obtainable from the Secretary of the Committee.

The University of Chicago Graduate Library School has selected as the theme of its 17th annual conference the subject: The Communication of Specialized Information. The conference will be held at the University of Chicago from 11 to 15 August 1952. Subjects to be covered include specialized communications in science and technology, social research and industrial relations.

The programme of the Conference can be obtained from the Graduate Library School, Chicago, Illinois, U.S.A.

(292) CHILDREN'S MAGAZINES IN ENGLISH

In a recent issue of the *Library Association Record*, vol. 54, no. 3, for March 1952, there is a list of 25 selected periodicals published in the United Kingdom and one in the U.S.A. which are suggested for inclusion in children's libraries. Full information regarding prices and publisher is given for each periodical.

(293) PUBLISHERS FOR YOUNG PEOPLE (RUMANIA)

Since it was established three years ago, the Publishers for Young People, of the Rumanian Union of Young Workers, has published over nine million copies of books of literary, political and artistic interest. In 1951 alone it issued 240 publications, 72 of them in Hungarian, German and Serbian for young people and students belonging to these three language groups, thus bringing the number of books published since 1948 in these three languages to 161. Its publications include novels and articles on the life and work of young people in various countries.

The Publishers for Young People encourages young poets and novelists and publishes a large number of their works. In 1951, 1,917 young people entered for the competition it held for the best literary work and the best book illustration; 78 of the works already published or selected for publication were awarded prizes.

In 1952 it will publish 73 translations of the world's best literature for young people, 134 books for children, and many popular books specially written for young people on the contributions made by science to technological progress.

MICROFILMS AND MICROCARDS

(294) NEWSPAPERS ON MICROFILM

The Union of German Newspaper Publishers has agreed that its members should make microfilm copies of every issue of their newspapers. These microfilms will be kept in the Deutsche Bibliothek at Frankfurt-on-Main, Germany. It is hoped by this arrangement to preserve all newspapers of value for future readers.

(295) BRITISH PATENT DRAWINGS AND SPECIFICATIONS

With the permission of Her Majesty's Stationery Office, the *Complete Drawings and Specifications* issued by the British Patent Office will be published on microcards by Towsley Microcards Inc., 41 East 42nd Street, New York 17. N.Y. These will be issued in the same manner as the *U.S. Patent Drawings and Speci-*

fications, that is in numerical sequence, without selection, each microcard carrying about eight patents.

(296) ENGLISH LITERARY PERIODICALS ON MICROFILM

University Microfilm of Ann Arbor, Michigan, U.S.A. announce that they are reproducing on 35 mm. microfilm some 200 British periodicals of the seventeenth,eighteenth and nineteenth centuries now difficult of access. The titles being reproduced have been chosen in co-operation with the Modern Language Association of America. The whole series will be offered on an annual subscription basis of $500 for approximately 100,000 pages each year. Individuals and libraries may if they wish order individual titles at $ .65 per page, provided the entire run of the title is purchased. The following are among the more than 200 titles selected:

Belfast Monthly Magazine, 1808-14.
Black Dwarf, 1817-24.
Edinburgh Magazine and Review (Edinburgh), 1773-83, Stuart.
Grub Street Journal, 1730-37, Russel, Martyn.
Heraclitus Ridens, 1681-82, Rawlins.
London Magazine, or *Gentleman's Monthly Intelligencer*, 1732-85, Wilford.
London Review and Weekly Journal of Politics, Literature, Art and Society.
Medley, 1710-12, Maynwaring.
Spectator, 1753-54.
Tory Tatler, 1710-11.
Westminster Magazine, 1773-85.

PUBLICATIONS

Under this heading the *Bulletin* mentions new and important bibliographical publications, reference works, recent scientific books and periodicals of special interest. Libraries and publishers are asked to co-operate by supplying us with full details of such publications.

Readers in the countries participating in the Unesco Book Coupon Scheme are reminded that publications reviewed in this section, if obtainable in Belgium, Burma, Ceylon, Czechoslovakia, Egypt, France, the German Bundesrepublik, Hungary, India, Indonesia, Iran, Israel, the Netherlands, Pakistan, Switzerland, Thailand, the Union of South Africa, the United Kingdom, the United States of America, or Yugoslavia, can be bought with Unesco coupons.

LIBRARIANSHIP

(297) The following is a selected list of simple works on librarianship in various languages, which have come to the attention of the Libraries Division of Unesco.

These books and summaries of courses are recommended as "first aid" for untrained librarians and those charged with organizing and managing small public and popular libraries. In view of their practical approach to the subject and their small format, they are recommended for adaptation or translation in countries where such publications are lacking.

BACH (Charles-Henri) and ODDON (Yvonne). *Petit guide du bibliothécaire.* 3rd edition, revised and brough up to date by Yvonne Oddon. Paris, "Je sers", 1948. 178 p. Illust.

Contains nine chapters on the public library and its functions, collections, classification, cataloguing, technical preparation of books, library services, the library, reader and publicity, building and furniture, how to establish a library; an annex gives lists of reference books, information centres, bibliography and abridged Dewey classification tables.

CÁCERES (G.), and others. *Regards neuf sur la lecture*, by G. Cáceres, M. Thomas, M. Citron, J. Dumazedier, R. Gauvin. F. Laporte, P. Rivenc, P. Royer, and A. Bazin. Paris, Éditions du Seuil, 1949. 190 p. pl. (Collection "*Peuple et culture*").

Prepared by the Reading Committee "*Peuple et culture*", this little manual deals with: organization, policies and practices of a library; role of the librarian; choice of books; popular reading and education; reading guides and clubs and collective reading.

Elementary and practical guide for untrained librarians and those responsible for organizing popular libraries.

Laerbog i bibliotekstekniк (Manual on librarianship). Edited by Allerslev Jensen, Age Bredsted, Robert L. Hansen and Bodil Normann. 3rd edition. Copenhagen, States Biblioteks Tilsyn.

Booklets published under the auspices of the library associations of Norway, Sweden and Denmark.

1. HANSEN (Robert L.). *De Nordiske folkebibliotekers udvikling of formal* (Development of Scandinavian public library services).
2. LASSEN (H. Hvenegaard). *Orplandsarbejde* (Extension Services).
3. KROGH (G.) and JENSEN (E. A.). *Administration.*
4. THOMSEN (Svend). *Udlansarbejde* (Lending Services).

Eleven further booklets in this series will appear later.

Manual para bibliotecas populares, by J. Albani, J. F. Finó, C. V. Penna, E. Ruiz y J. E. Sabor. Buenos-Aires, Kapeluzs, 1951. 310 p. Illust. ("*Contribuciones bibliotecológicas*", serie dirigida por Carlos Victor Penna).

First volume of the series "*Contribuciones bibliotecológicas*", edited by Kepeluzs.

This book is made up of chapters written individually by professors of the School of Librarianship, Museo Social Argentino, for small popular libraries in Latin America. It has been prepared specially for libraries which lack funds and adequate personnel.

Contains: history of the book and of printing, administration, building, furniture and equipment, book selection and acquisition, cataloguing and classification, lending and circulation, reference and bibliography (with a list of basic reference books), publicity, statistics.

MOSHIER (L. Marion) and LEFEVRE (Helène S.). *The small public library; organization, administration, service.* Chicago, American Library Association, 1942. 142 p.

Contains seven chapters on the library and the community, organization and government, library staff, physical plant, book collection, technical and mechanical procedures, library service; four appendixes on supplies and supply houses, accredited library schools, state and provincial library extension agencies, professional shelf.

"Planned to serve primarily the librarians and trustees of small public libraries—small in relation to material size." (Foreword p. 3).

REPČÁK (Josef). *Pratiché rady pre knihovníkov; malých a stredných obecných knižníc.* Bratislave, Státne Nakladatel'stvo, 1947. 65 p. Illust.

Manual on library techniques for small public libraries; a practical small book for library students and untrained staff.

SHEHATA (Abd el Salam). *Library and society.* Cairo, Research Centre Fouad I, 1949. 191 p.

This manual in Arabic gives a very brief description of subjects of interest to a beginner, such as: reference work, bibliography, cataloguing, classification, administration, different types of libraries, microfilms, copyright, editing and publishing. Book selection is treated more extensively. Gives a very brief outline of a teaching programme for Arabic librarians.

VELAZCO (Severino I). *Handbook on municipal libraries.* 1949. Republic of the Philippines, Department of Education, Bureau of Public Libraries. Manila, Bureau of Printing, 1949. 104 p. Illust. Philippines (Republic) Bureau of Libraries

In three chapters—library establishment and management, library policies and practices, and library service—the author endeavours to make this handbook "a guide for the unprofessionally trained municipal library custodian as well as for all the townspeople, including the municipal officials who should have a hand in the establishment of municipal libraries; a guide for all citizens so that they may help successfully to establish their municipal library and promote its rapid growth". (Foreword, p. 4).

A brief practical handbook that could serve as a model for countries with similar needs.

VICENS (Juan). *Cómo organizar bibliotecas.* México, Atlanta, S.A., 1946. 106 p. (Colección "*Cuadernos de Educación práctica*").

"Treats of the creation of the library, its installation, the arrangement and classification of books with classification tables, the cataloguing processes, services and publicity; includes a short bibliography. A brief but excellently composed work." (*Handbook of Latin American studies,* 1942. p. 430).

CARTER (Mary Duncan), director. *Institute for librarians.* Cairo Library Association, Cairo, April 19-May 5, 1949. Published by the United States Offices of Information and Educational Exchange.

This work compiled by the Cairo Library Association under the direction of Dr. M. Duncan Carter, consists of six lectures by qualified librarians on topics pertaining to librarianship. It is intended as a practical introduction to library problems for those already engaged in library work. The subjects selected are in response to specific requests from members: purpose of library training; administrative and personnel problems; principles of book selection; cataloguing and book selection; reference and bibliography; library extension; development of branch libraries.

THOMPSON (Laurence). *The main outlines of library science.* Summary of the courses given in Ankara and Istambul between December 1951 and February 1952. Mimeographed in Turkish and English.

This syllabus contains notions on book selection and acquisition, gifts and exchanges, how to treat collections, periodicals and official publications, classification and catalogues. It is divided into five chapters according to the different classes of libraries: public and popular libraries; school libraries; university libraries; private libraries; national libraries. It also includes an outline of Dewey classification tables.

BIBLIOGRAPHIES AND DICTIONARIES

(298) *Bibliographie der deutschen Bibliothek. Halbjahres Verzeichnis. Januar-Juni* 1951. Frankfurt a.M., Buchhändler-Vereinigung, 1951. 321 + 134 p.

The present volume marks the reappearance of a German bibliographical publication of particular importance which had ceased publication for some years. The work in question is a general cumulative bibliography listing all works issued by German publishers and works in German published abroad. It is divided into two parts, the first giving the authors and anonymous works in alphabetical order, while the second is an alphabetical index of the same works by subjects, classified according to the key words in their titles.

(299) *Letopis na Periodicnija Pecat*, Institut Bulgare de Bibliographie Eline Péline, 15a rue Tzar Kroum, Sofia. Foreign subscriptions: 10 Swiss francs.

The first issue of this new monthly index to articles in approximately 500 Bulgarian scientific and literary periodicals and daily newspapers appeared in January 1952. Each number contains 300-500 author, title and page references. These are classified by subject, and there is an author index with each number. Brief descriptions accompany some of the references. Mention is made if the article contains a bibliography.

(300) THE ROYAL INSTITUTE OF BRITISH ARCHITECTS, ed. *Bibliography on library buildings*. London W.1, 66 Portland Place. 1s. 6d., post free for a set of all five parts.

This bibliography, recently published in mimeographed form, comprises five separate parts: (1) General books and articles, equipment; (2) International and national libraries, including archives; (3) Public libraries, central and branch; (4) University and college libraries; (5) Special libraries. The list is probably the most comprehensive currently available.

(301) NETHERLANDS GOVERNMENT INFORMATION BUREAU. *Bibliographia Neerlandica 1940-1950*. The Hague 1951. VI, 214 p.

This practical handbook, published in the form of a bibliography, deals with the Netherlands, Indonesia (up to 1949) and the Netherlands West Indies. It gives a list of all publications and separate reprints of articles on the Netherlands, issued in any language, between 1940 and 1950, with the exception of magazine articles and novels. These publications are classified in 13 sections: general, geology and ethnology, archaeology and history, culture, etc. The work also contains a list of authors and an index of persons referred to and of geographical names.

(302) *Dissertation abstracts* (formely *Microfilm abstracts*), University Microfilms, Ann Arbor, Michigan, U.S.A. vol. XII, no. 1, 119 p.

With no. I of vol. XII the title of *Microfilm abstracts* has been changed, as well as its size and subscription rate. It is now to be issued six times a year at a cost of $6 yearly, or $1.50 per issue, and the size is 21.5×28 cm. In the course of a year approximately 2,500 abstracts of American dissertations will be published. All the dissertations abstracted are available for purchase on microfilm at 1 ¼ cents per page.

Titles of dissertations not abstracted will also be listed, and the publication will endeavour to become a complete bibliography of U.S. doctoral dissertations. There will be a cumulative yearly author and subject index.

(303) PERAZA SARANZA (Fermín). *Diccionario biográfico cubano*. vol. 1. Biblioteca del Bibliotecario 36. Anuario Bibliográfico Cubano, Apartado 572, Habana. 1951. 104 p. $5.

Preliminary edition of a biographical dictionary of Cuba's most eminent past and present personalities. Arranged alphabetically. The first volume covers A to CH. Gives concise information and has an alphabetical index. This work will consist of as many volumes as found necessary.

(304) *Der neue Herder*, Freiburg i. Breisgau, Deutschland. Verlag Herder. 3 volumes (17.5×26). DM.10.

This up-to-date dictionary, intended for the general public, has been compiled by over 200 specialists. It covers every department of life and science and contains over 5,000 illustrations, drawings and maps.

ECONOMICS AND STATISTICS

(305) *International economic papers*, no. 1. Translations prepared for the International Economic Association, London, 1951, Macmillan & Co. Ltd. 244 p. (Price $3.50; 15s.; 900 F. fr.).

Ten papers appearing from 1933 to 1950 in economic journals have been translated from French, German, Danish, Russian, Dutch, Italian, and are now published for the first time in English. The selection has been made by an editorial board of the International Economic Association. The Unesco Co-ordinating Committee on Documentation in the Social Sciences made a small grant available to assist in financing the work. The editors are Alan T. Peacock, Ralph Turney, Hendrik S. Houthakker, Frederich A. Lutz and Elisabeth Henderson.

(306) ROYAL STATISTICAL SOCIETY. (L. H. C. Tippett, ed.), *Applied statistics*. Olivier and Boyd, Ltd., Tweeddale court, High street, Edinburg, I. Published in March, June, November, 25s. (U.S.A. $4) post free.

A new periodical for the everyday consumers and users of statistics, as well as the producers. The aim of the journal is to publish articles of interest to administrators and executive officers, technologists and engineers, physicists and chemists, economists, social scientists, teachers and students. The activities of the Industrial Applications Section and the Study Section of the Royal Statistical Society are reported.

THEOLOGY

(307) *Vetus Latina. Die Reste der altlateinischen Bibel*, nach Petrus SABATIER neu gesammelt und herausgegeben von der Erzabtei Beuron, Freiburg i. Breisgau, Deutschalnd. Verlag Herder. Vol. 1: Verzeichnis der Sigel für Handschriften und Kirchenschrifsteller, von Bonifatius Fischer O.S.B., 4, 104 p., kart. DM. 10. Vol. 2: Genesis, 1. Lieferung von Bonifatius Fischer O.S.B., 4, 170 p., br. DM. 35 (Subscription rates: vol. 1: DM. 8.50; vol. 2: DM. 29.75).

The oldest Latin version of the Bible, translated from the Greek towards the end of the second century A.D., consisting of complete books, fragments and isolated pages, assembled by Sabatier in 1743.

The present edition will contain all the old Latin texts and manuscripts not previously published. This work throws new light on the development and history of theology, biblical interpretation and theological terminology.

PROGRESS IN BIBLIOGRAPHICAL SERVICES

(308) INTERNATIONAL CONSULTATIVE COMMITTEE ON BIBLIOGRAPHY

The Provisional Committee, at its meeting in Paris from 21 to 25 April 1952, recommended to the Director-General of Unesco that the above title be adopted as the Committee's permanent name.

This meeting followed on from that held by Unesco in London in April 1951; a short report on the results of that earlier meeting was included in the *Bulletin* (vol. V, no. 7, July 1951).

The Committee, this year, consisted of the following 12 members: Messrs. Pierre Bourgeois (Berne), L. Brummel (The Hague), Julien Cain (Paris), Verner W. Clapp (Washington), J. E. Cummins (London), F. C. Francis (London), J. Meyriat (Paris), Miss C. Mohrmann (Nijmegen), Messrs. Arne Møller (Copenhagen), A. Perez Vitoria (Mexico), S. R. Ranganathan (Delhi) and M. Taube (Washington).

As at last year's meeting, many international organizations were represented by observers: United Nations, International Labour Organisation, World Meteorological Organization, International Association of Music Libraries, International Children's Centre, International Council for Building Documentation, International Council of Museums, International Council of Scientific Unions, Organization for European Economic Co-operation, International Organization for Standardization, Union of International Associations.

Four guests were also present: Miss L. N. Malclès (Paris), Mrs. L. Sambaquy (Rio de Janeiro), Dr. Curt Worman (Jerusalem) and Dr. L. Carnovsky (Chicago).

The four main items on the agenda were the following: the Committee's terms of reference, membership and title; contracts for bibliographical projects; annual report on the development of bibliographical services; Guide to National Bibliographical Centres. At Mr. L. Brummel's request, the Committee also discussed the question of union catalogues.

The Committee made the following recommendations:

1. It is recommended to the Director-General of Unesco that he appoint an International Consultative Committee on Bibliography. Its members, of whom there shall not be more than 15, shall be chosen for their special competence in different bibliographical fields and for their experience of the work of non-governmental organizations concerned with bibliography in the natural and social sciences and in humanistic studies.

   The Committee's terms of reference shall be as follows: (a) to advise the Director-General on the choice of methods whereby Unesco may achieve the objectives of the Conference for the Improvement of Bibliographical Services held in November 1950 and, especially, may stimulate the activity of national bibliographical groups; (b) to review proposals for activities by Unesco in the field of general bibliography and to advise the Director-General on Unesco's programme in this field; (c) to consider problems which may arise in connexion with the bibliographical activities of Unesco's different departments, or of organizations working under its auspices and to advise the Director-General on ways in which such problems may be solved; (d) to advise the Director-General on methods whereby Unesco's bibliographical activities may be co-ordinated with those of other international or national, governmental or non-governmental organizations.
2. The Committee studied a number of proposed contracts for work designed to improve bibliographical services and, after hearing the report of a special sub-committee appointed to consider this matter, decided to recommend eight of them to the Director-General. They cover the following tasks:

Standardization of rules applied in catalogues and bibliographies as regards Asian names; preparation of a list of periodicals published in Asia; preparation of a list of reference books published in Asia; standardization of bibliographical rules; preparation and use of union catalogues; publication of a list of periodicals of international non-governmental organizations; discovery of gaps in bibliography; translation into Arabic of handbooks for librarians.

3. The annual report on the development of bibliographical services shall be submitted to members of the Committee before it is finally published by Unesco in the form of a multigraphed document. The Committee would also like the whole or part of the report to be included in other publications, provided, of course that no changes are made in the text.
4. With regard to the *Guide to national bibliographical centres*, the Committee made the following recommendations: Each country co-operating in the preparation of the *Guide* shall first of all supply the name of its general bibliographical centre, if such a centre exists, able to ensure liaison with other more specialized centres. Countries with no general centre shall give the names of four specialized centres. Lastly, the more advanced countries shall list one general centre and three centres specializing respectively in science and technology, humanistic studies and the fine arts, social science and education. The Committee further recommends that the Guide contain information on services for photographic reproduction and on each country's practice in the matter of lending documents to other countries.
5. The Committee finally made three additional recommendations: (a) that it be periodically supplied with information regarding plans to set up bibliographical centres whether under Unesco's ordinary programme or under its Technical Assistance programme; (b) that it be understood that the existing Committee will remain in session until the appointment of the 1953 Committee; (c) that the Secretariat maintain contact with the Committee through the transmission of quarterly reports.

(309) COMMITTEE FOR THE CO-ORDINATION OF SOCIAL SCIENCE DOCUMENTATION

This Committe met at Unesco House from 26 to 28 March 1952, with Professor J. Meynaud, Secretary-General of the International Political Science Association in the chair. It laid down the procedure to be employed for bringing up to date the *Selected inventory of periodical publications*, issued by Unesco in 1951, and prescribed the main lines for a guide for those in charge of specialized libraries and documentation centres in countries where the social sciences are underdeveloped.

The Committee also took appropriate steps to ensure the publication of *Current sociology* and continued publication of *International political science abstracts*, and further decided to proceed with the preparatory work for the publication of an *International bibliography of political science*, which could appear annually from 1953. It considered means for ensuring international distribution of national bibliographies within the Committee's field, and approved the principles and recommendations relating to the compilation of the "Register of Current Research".

A guide describing the work of a social science documentation centre will be published and used along with the International Catalogue of Social Science Documentation Centres.

Finally, the Committee agreed to complete the compilation of a world list of specialized periodicals in the Social Sciences and fixed the amounts of the grants it can give to a number of bibliographical publications in 1952.

PUBLICATIONS WANTED
PUBLICATIONS DEMANDÉES

The most urgent requests received by the Unesco Clearing House for Publications are listed below. Libraries able to offer any of the works needed are asked to communicate directly with the library concerned.

In addition, libraries in countries in which the Unesco Gift Coupon Scheme is now operating are urged to consider using the scheme to help meet these needs.

Nous publions ci-dessous la liste des demandes les plus urgentes reçues par le Centre de l'Unesco pour l'échange des publications. Les bibliothèques qui peuvent offrir certains des ouvrages énumérés sont instamment priées de se mettre directement en rapport avec l'institution qui en a besoin.

D'autre part, les bibliothèques des pays qui appliquent le système des bons d'entraide Unesco sont priées d'examiner la possibilité d'utiliser ces bons pour contribuer à satisfaire ces demandes.

BULGARIA / BULGARIE

(364) CARNEGIE INSTITUTE OF TECHNOLOGY LIBRARY, Schenley Park, Pittsburgh, Pennsylvania (13),

Offers / Offre:
Educational papers.
Occasional papers.
Notebooks in civil engineering.

NOTICE / AVIS

Libraries interested in circulating lists of publications offered for free distribution and exchange to institutions in all parts of the world are invited to send their lists to the Unesco Clearing House for Publications. *Please do not send these books or periodicals* to Unesco since storage space and personnel are limited for handling such material. A list of titles arranged in classified library form is sufficient.

To obtain complete information regarding circulation of a list, please write to the Clearing House.

Les bibliothèques qui désirent faire circuler des listes de publications offertes aux institutions du monde entier à titre gratuit ou aux fins d'échange sont priées d'envoyer des listes de titres classés par sujets au Centre de l'Unesco pour l'échange des publications. *Prière de ne pas adresser de livres ou de périodiques* à l'Unesco, qui ne dispose ni de la place ni du personnel nécessaires pour les conserver et les classer.

Pour toute information supplémentaire concernant la circulation des listes, prière de s'adresser au centre d'échange.

Libraries on the mailing-list of *Unesco Bulletin for Libraries* may wish to notify Unesco of change of address or of their desire to discontinue receipt of this publication. If so, please return to the Clearing House the wrapper of the last issue dispatched, on which appears the address to be cancelled or amended.

Les bibliothèques qui se trouvent sur la liste des destinataires du *Bulletin de l'Unesco à l'intention des bibliothèques* et qui désirent ne plus y figurer ou notifier à l'Unesco un changement d'adresse sont priées de retourner au centre la bande d'envoi du dernier exemplaire, portant l'adresse à biffer ou à modifier.
